Subject: WIPP

Blue Ribbon Commission Members:

When I read in the paper recently that once again there would be WIPP involvement in New Mexico, I was appalled, after all the years and all the people of our state's efforts to make sure we would never have to contend with the numerous problems associated with having nuclear waste dumped here! Please do not allow the government to now break faith with their promises to us of the past!

Thank you so much for your consideration of this matter, making sure that WIPP will not resurface in this special place we love!

Gratefully,
Sister Kathleen Corbett, SL
